#### A CHRISTMAS STORY.

HOW THE STOCKINGS WERE FILLED.

Pussy got into the house somehow, just as the least little streak of morning light was beginning to peep through the window curtains, and stole up stairs. She jumped upon the bed and rubbed her cold nose against Lill's face, and wakened her.

Lill sprang up in bed, for it came to her like a flash, "It's christmas day!"

"Bessie, wake up! Merry christmas!" she cried, and in half a minute four little bare feet were pattering down stairs to the sitting-room, after the christmas stock-

They hadn't a doubt of finding them full. Santa Claus had never forgetten them yet.

You can imagine, then, their dismay when each little girl clasped a limp and empty stocking, with not so much as a sugar-plum to fill out the toe.

They ran to mamma's bed-room to pour

out their complaints.

"Santa Claus forgot us!" cried Lill, with starting tears.

"He didn't bring us anything!" said Bessie, throwing herself across her mother's feet in agony of grief.
"I think's it's too bad!" said Lill.

"He's real mean. I'll never like him

again!" said Bessie.

"Oh, go back to bed," said mamma.
"You've got up too early. How do you expect Santa Claus can always get round before daylight? There are such numbers of little boys and girls, the wonder is that he gets round at all. He'd never forget

Rather disconsolate, the little girls went

"You needn't feel so bad, Bessie Bradley. Haven't you found out more'n a hundred times, that mamma knows about things better'n we do?" said Lill.

"I ain't feeling bad, any mor'n you are! and Santa Claus is a comin' in 'bout nine

or eight minutes," said Bessie.

While waiting for daylight they talked of the presents they hoped to have, and as soon as the sun peeped above the eastern horizon they were up, and putting on their clothes as quickly as possible, went

There was nobody in the sitting-room. A fire was burning in the grate, and the stockings hnng against the mantel, but they still looked limp.

They were not near enough to be sure they were empty, when a loud "Toot! too too!" sounded from somewhere with a

jingling of bells and a tramping of feet.

"He's coming! O Lill Bradley, old Santa's a coming!" said Bessie, clinging to her sister's skirts. Lill held her breath, and said nothing.

The door flew open, and in bonnced Santa Claus, sure enough! He wore a very furry coat, a red cap, high and pointed at the top, and bound with fur. His eyes were hidden behind great silverrimmed spectacles, and his hair and beadwere long, and white as snow.

Mamma came out of the bedroom just then, and Bessie and Lill sided up to her, and caught each one of her hands, feeling half afraid of the queer, "jolly old elf," and then stood, silent and watching.

The great pack upon Santa's back didn't seem to be empty yet, and there were packages peeping out of every pocket, out of the breast of his coat, and even out of his sleeves. He seemed in a tearing hur-

"Whew! whew!" said he. "This is the first chance I've had to take breath since I started out last night. So many youngsters to visit this year! I thought I never should get round. Whew! how hot it is here. Well, let' see!"

He whirled the pack from his back, down on the rug, and began rumaging vigorously among the nackages within it.

over."

He drew out a package, held his head on one side with afunny little grimace as he peeped into it, and then thrust into

Lill's red stocking.

"That's a doll, I know!", whispered Lill, squeezing her mother's hand. A similar package went into Bessie's

blue one. Then other, smaller packages, till the stockings would hold no more.

All the time he worked he kept jerking ont funny little speeches about the children and their wants, as if he knew all about them about them.

Lill and Bess were in a state of joyful excitement. Lilt thought there was something familiar about the voice, or the motions, or something; she couldn't tell

"I believe I've seen him before! Else I dreamed I did! Else he's some like father!" she whispered.

Her mother laughed aloud at this. It made old Santa Clans look up from his work, and he seemed to espy the little group in the corner for the first time.

"Bless my stars!" he ejaculated, beginning to gather up hastily from the rug the purcels that had fallen out of his pack. "Bless my stars and stripes! Folks

mnstn't see me about this business!" He threw his pack over his back, and then putting his hands deep in his side pockets, drew them out full, and a shower

of sugar-plums pelted the little girls, as he hurried out of the room. Just as he was going he threw a big

package at their mother, saying:

"That's for the old lady, there! Came
pretty near forgetting her."

Lill knew the voice in which this was said, and cried out:

"It's father! It's father!"

They sprang after him and led him back into the room in laughing triumph. They took off the pointed cap and the blue spectacles. They brushed the flour from his eyebrows, and rubbed the red from his cheeks. They robbed him of the pillow that had made him look so "chubby and plump," and the gray wig and beard that made him look so venerable.

And when they came to examine the contents of the stockings they were more than ever delighted to have for a Santa Claus their own dear father.-Youth's Companion.

A little spin's o' turpentine added to the water with which the floors are washed will prevent the ravages of moths.

Use kerosene, or bath brick or powdered lime to scour iron, tin or copper; wash in hot suds and polish with dry whiting.

To remove spots from furniture, four ounces of vinegar, two ounces of sweet oil, one ounce of turpentine. Mix and upply with a flannel cloth.

Spirits of ammonia diluted with water, if applied with a sponge or flannel to discolored spots on the carpets or garments, will restore the color.

Skim milk and water, with a little bit of glue in it, made scalding hot, will remove old rusty black crape. If elapped and pressed dry, like fine muslin, it will look as good as new.

When carpets are well cleaned sprinkle with salt and fold; when laid strew with slightly moistened bran betore sweeping. This, with the salt, will freshed them up wonderfully.

A paste made of whiting and benzoin will clean marble, and one made of whiting and chloride of soda, spread and left to dry (in the sun if possible) on the marble will remove spots.

#### DAILY EVENING BULLETIN.

TUESDAY EVENING, DEC. 20, 1881.

THE state senate has passed the liouse bill calling for a popular vote at 1883 upon the question of calling a convention to amend the constitution of Kentucky.

THE Louisville Post says: The Kentucky Plow-handle Company located at Mt. Sterling, recently sold to Thos. Meikle & Co., of Louisville, 20,000 four-foot handles: they also have a contract to furnish Maysville parties with 40,000 five-foot handles and 100,000 handle rounds.

The Cleveland Leader, a Republican organ of the straightest sect gravely declares that "the Republican party is now responsible for the legislation of congress and care should be taken to prevent the country from drifting into an unsound financial condi-'tion." This is tautamount to an admission that the Democratic party during the six years of responsibility for the legislation of congress, succeeded in restoring the country to a sound financial condition, and that there is danger that the Republicans will cause a retrogression to the financial state of 1873-4, the last years of Republican control in congress. The Leader evidently distrusts its own party on economical questions. Small wonder since that party abandoned its debt paying traditions and professions to aid the demagogue Mahone in dishonoring one of the greatest commonwealths in the union, and to make that same uncrupulous adventurer a dictator in the United States Senate. After so shameless an abandonment of principle by their party, consistent Bepublicans may well fear for the legislation of the present congress on subjects related to sound and ical condition. and honest finance.

It is questioned whether in the event of the abolition of the internal revenue system there can be made a reduction of the duties on imports. Some theoretic free traders argue that the repeal of the taxes on whisky and tobacco will leave the treasury in a condition that will enable the protectionists to insist with reason on the existence of an exorbitant trriff. But their fears are groundless. If the internal taxes should be abolished and the revenues of the government from the tariff should afterward need to be increased true political economy, as well as the experience of nations, teaches that excessively high duties produce little revenue while moderate duties judiciously laid have the effect of swelling the receipts of the government.

The abolition of the internal revenue system will therefore cemmend itself to intelligent minds as the forermner of a revision of the tariff; for it is plain that \$25,000. if the government needs revenue and there remains no other source from which to ports must be so laid and adjusted as to produce revenue rather than to prohibit importation. The internal taxes are a legacy of the war. If the country is ever to return to the simple mode of taxation which prevailed before the war, the taxes which were the necessary outgrowths of the war must be first abolished. When that clear to a resumption of the tariff policy of ante-bellum times. It will then be clearly seen that the principal object of a tariff must be revenue. Besides, it is certainly one of the principal objects of all revenue reformers to reduce the burden of taxation. That objection can be attained in a large degree through the repeal of the international taxes. Let us begin at the beginning. Let the war taxes be first swept away and afterward we shall be the better able to devise a system of tuxation suitable to a time of peace.

#### SMALL POX.

The Number of Cases at Cincinnati Increasing Dai'y-The Laws of this State Concerning Vaccination.

If reports are true, the terrible scourge small pox, has increased at Cincinnati during the last two weeks to a most alarming extent. From the publications in the papers of that city, we learn that during last week from five to fifteen new cases were reported each day. The Board oi Health recognizing the necessity of taking some action to prevent the further spread of the disease, has opened an office where all who wish may be vaccinated free of charge. Every day last week four or five physicians were kept busy at the office. Eight hundred and two persons were vaccinated. But the question is was that action taken in time? Is there not great danger of the scourge being communicated to the neighboring towns. Is there any certainty that we will not have it here? In view of this would it not be well to take some precautionary measures. Why delay until the disease has appeared in our midst. Why Baldwin, the Cincinnati music dealer, not have the statute of the State and the has purchased one hundred pianos of the ordinance of the city concerning vaccination enforced. We presume that many of our readers do not know the provisions of these laws and we therefore produce them below:

SEC. I. All persons of the age of twenty-one years and over, who have not been vaccinated or, if vaccinated, not successfully, shail within three months after this revision takes effect. procure their own vaccination, or revaccination as the case may be.

sec. 2. All parents guardians, and other persons having the care, custody or control of any child or children, or who may have in their employ any minor or minors, shall have the same vaccinated; and every parent, guardian, and other person that may have the care, custody, or control of any child born hereafter, shall have said child vaccinated within twelve months after its birth, or after it comes under months after its birth, or after it comes under his or her care, custody or control.

The statute also requires justices of the peace to authorize practicing physicians to vaccinate all the persons who are unable to pay for same and prescribes the manner in which the physicians shall receive their compensation for such service. The most important section is the one that reads as follows:

"All vaccinations performed under this arti-cle shall be with pure vaccine matter."

The statute further says that each of the persons referred to in the above sections shall be liable to a fine of from five to twenty dollars for every failure or refusal to comply therewith. It would be interesting to know how many persons there are in Maysville who have failed to comply with the requirements of this law.

There are no doubt agreat many. We will ask also if the Committee on Education have carried out the provisions of the city ordinance on this subject. The section referring to the matter is as follows:

SEC. 4, Be it further ordained that the Committee on Education shall require all children in attendance upon the Public Schools of the city to produce a physician's certificate that they have been vaccinnated, and, in case of the refusai or faliure of any child to produce such certificate, as required such child, to absent himself or therseif from the city schools until he or she shall have compiled with the provisions of this ordinance.

ALBERT'S China Palace, as is usual at this season of the year is fairly ablaze with pretty things for the holidays. The stock in every department has been newly replenished, and on every hand there may be seen a most dazzling display. The toy department is especially complete and has already attrected throngs of buyers. The prices are very low this season and the stock, as well if not better selected than usual. Buyers of holiday goods are invited to call with the assurance that their wants will be supplied upon the most satisfactory terms. The display is well worth going to see and even though you do not wish to buy you will be made welcome.

Howarth's Hibernica will appear at Washington Opera House on Friday and Saturday, December 30th and 31st. Remember the dates.

#### A City of Lambent Light.

From the Keokuk Constitution.

The city of Aurora, Ill., forty miles west of Chicago, affords a striking spectacle of the revolution in lighting cities by the electric tower plan. At night the city is bathed in a flood of lambent light, and her citizens are in a state of delighted enthusiasm over the splendid practical results achieved. The system consists of six electrical towers, made of iron rods and net work, each 150 feet high. These are crowned with electric lamps of 2,000 candle power each, or equal to 125 gas jets.

The cost complete for each tower and apparatus is about \$1,000. One electric tower lamp, fed by soft coal at \$3 per ton gives a 2,000 candle light at 23 cents per hour—a ratio of 2½ to 50 compared to a corresponding use of gas-light. The people of Aurora are universally inbilant over the result of the adoption of the new sys- Henry Grays, Adm'r. tem and express the most earnest and complete satisfection with the brush tower plan in all its bearings and aspects.
